

Change a life week

Salem farm

School

HIV program

Vocational training

Orphanage

What is Change a Life?

Change a Life is a unique Computershare initiative designed to provide a secure future for people living in poverty. At the heart of the project is an agricultural scheme that will provide employment to support up to 20,000 people. The nucleus farm, Salem, will generate enough income to fund an orphanage, school, HIV program and vocational training centre in Kenya.

Get involved, sign up to an event and do your bit to Change a Life!

In acknowledgement of your support, Computershare will match all employee payroll contributions via PeopleSoft as well as every pound raised throughout the week!
