

Change a life

Computershare Head Office

Computershare Head Office leads the way

Over past years some fantastic initiatives have come out of the Computershare head office in Melbourne, allowing funds to be redirected to Change a Life:

- Our employees responded magnificently to the Computershare Tsunami Appeal and raised A\$700,000 for global charitable organisation CARE International with funds being directed towards some of the worst hit areas in Sri Lanka
- The license fee received from Topdek café was channelled into the Change a Life initiative, which totals an AU\$39,000 a year
- Annual Reports from 2005 and onwards have been shortened, which not only cuts costs but also provided a substantial paper reduction. This saved AU\$50,000 which was then donated to Change a Life in 2005.

What is evident from these examples is that Computershare is serious about its commitment to Change a Life. The company, however, is now reliant on its many stakeholders to show their support by donating to the cause. Change a Life grants the global Computershare community the opportunity to unite in their fight against poverty; after all, it's all about participation!
